STEM Lesson Development Workshop

July 13, 2022 · July 20, 2022 · July 27, 2022

The above named individual has completed the necessary requirements to obtain 9 contact hours.

In this 9 hour in-person workshop series, participants will collaborate with one another to develop engaging, high-quality STEM lessons. Participants will explore a wide range of STEM OERs, effective lesson planning templates, and other resources to aid in the development of STEM lessons. Participants will share their lessons in an open-community format.
